5MB of Free RAM

| | |
|------------------------------|--|
| Remote Lock | Locks lost or stolen devices by a remote SMS command. After locking, no unauthorized person will be able to access data stored on the device. |
| Remote Wipe | Safely deletes all contacts, messages and data on removable memory cards. Advanced cleaning procedures ensure that it is not possible to restore wiped data (Android 2.2 and higher). |
| GPS Localization | Remotely locates the phone using a remote SMS command and tracks the phone's GPS coordinates. |
| SIM Matching | Stay in control of your company smartphones remotely, even when an unauthorized SIM card is inserted. The Admin Contacts phone numbers will receive a wealth of information about the inserted SIM, including the phone number, IMSI and IMEI codes. |
| Admin Contacts | Admin Contacts are your help in the event of mobile phone's loss or theft. Initially, you set up one or more Admin Contacts phone numbers. |
| Call Blocking | Blocks calls from unknown or hidden numbers and also calls to unwanted numbers. Define a list of allowed/ blocked contacts and keep your phone bills under control. |
| Uninstall Protection | One password controls it all. Only authorized persons will be able to uninstall ESET Endpoint Security for Android (version 2.2 and higher). |
| SMS/MMS Antispam | Filters out unwanted SMS/MMS messages. Allows you to define custom blacklists/whitelists or simply block all unknown numbers. |
| Real-time Protection | Protects all applications, files and memory cards with the ESET NOD32 proactive technology optimized for mobile platforms. |
| Security Audit | An on-demand security audit checks the status of all vital phone functions, including battery level, Bluetooth status, home network, disk space and running processes. |
| On-access Scanning | Advanced scanning protects company smartphones and tablets from threats attempting to access the system via Bluetooth or Wi-Fi. |
| On-demand Scanning | On-demand Scanning provides reliable scanning and cleaning of integrated memory and exchangeable media. Scanning of specific folders is also supported. |
| Remote Administration | Enables you to check the security status of your smartphone fleet, run on-demand scans, push security policies and set uninstall password. Get overview of the platforms, OS versions and other information and stay up-to-date on your smartphones' security. |
| Administrator Message | Allows administrator to push a message to the device with custom text via ESET Remote Administrator. The message priority can be set to normal, warning or critical warning. |

NOTE: Features not available for tablets which do not support calling and messaging: Remote Lock, Remote Wipe, GPS Localization, SIM Matching, Trusted Friend, Call Blocking, SMS/MMS Antispam.
