

# Set up 2-factor authentication in 10 minutes

Looking to secure access to your company data in no time? ESET Secure Authentication gives your people super-easy secure access from anywhere.

## You can use ESET Secure Authentication for:

- Accessing your company's VPN
- Protecting sign in into an operating system
- Web/cloud services such as Office 365 and Google Apps
- Outlook Web Access (OWA)
- Exchange Control Panel 2010 & Exchange Administrator Centre 2013
- and more

## This is how you can quickly protect your VPN:

	<b>Run the ESET Secure Authentication Installer</b> <ul style="list-style-type: none"><li>• Run the installer</li><li>• Select all allowed components</li><li>• Finish the installation</li></ul>	 00:00 - 02:00 min
